

LEVEL 1 1-2 YEARS

The journey begins with discovery.

In Level I, children are welcomed into a warm, nurturing environment where they feel safe to explore, express, and begin building trust outside of home. Through guided play and sensory-rich experiences, we support their earliest developmental milestones.

At this stage, children begin to:

- Explore their environment with confidence
- Develop early communication skills
- Engage in simple routines and transitions
- Build initial social connections

Every moment is intentional designed to spark curiosity and create a sense of security.
