

LEVEL 2 2-3 YEARS

Growing independence starts here.

As children become more aware of themselves and others, Level II focuses on strengthening communication, encouraging independence, and guiding social interactions in a structured yet flexible environment.

At this stage, children:

- Express their needs and ideas more clearly
- Begin to follow routines with greater autonomy
- Develop social awareness and peer interaction
- Are introduced to foundational concepts such as colors, shapes, and numbers

We guide them with consistency and care, helping them feel confident in their abilities.
